

May

4's Classroom

# May Newsletter

Hello Families,

I can't believe that the end of the school year is quickly approaching. We have accomplished some much this year and I am so proud of each child. This month is going to go by fast. In April we started talking about bugs and insects. This unit will continue into May as we will build upon the topics. We have been taking care of our own butterflies at school and they are doing great! I love seeing how excited the kids are to look at them each day! We will continue to learn about different bug lifecycles and watch as our caterpillars turn to butterflies.

Now that the weather is getting warmer please make sure your child is dressed accordingly. We try to get them outside as much as possible without taking time away from instruction. Please make sure they are wearing close toed shoes and no crocs please. Please also make sure you are continuing to send in their water bottle. If you also want to send in a sun hat that is perfectly fine.

If you have any questions feel free to message me on Brightwheel or email me! Lets end this year on a high note!

~Miss Broadhead & Mrs. Lynch
