

JANUARY

4's Newsletter

Millroy/Spicher and Horwith/Lynch

Dear Families,

December provided our students and families the opportunity to visit with Santa in the Grove, and create Christmas crafts. Both classes also experienced an enjoyable family field trip to see the Lehigh Valley classic, "Pip the Mouse". The students also had fun cutting and decorating individual batches of Holiday cookies and creating holiday gifts for their families. During January the classes will explore land animals and their habitats. Our students will investigate the differences between water and land habitats, study what land animals eat, how they grow and change. We will continue to introduce the new letters, numbers, shape and color of the month, as well as play outside as often as the weather permits!
